

## bema 20 / bema 20 Dual

### SWEEPERS BUILT FROM A MODULAR KIT

#### Series 20 with main brush Ø 520 mm

From single to Dual! Depending on budget, application and carrier vehicle the sweeper is configured from the modular system. From the basic machine without a collection container through to the comfortable „Dual“ version with the full range of equipment. Retrofitting at a later date is no problem.

### FEATURES

- ✓ **Large collection container volume:**  
Ranges between 135 litres and 270 litres depending on collection container type and working width.
- ✓ **Best value for your money and longlife quality „Made in Germany“:**  
Use of high-quality components and materials.
- ✓ **A small sweeper with many equipment components - optimally tailored to your needs:**  
Various brushes for year-round use, water spray unit, rotary side brushes, 3D roller level compensation with „bema-Meter“, collection container „Dual“, stepless spindle adjustment of the main brush, wheels and much more are individually configurable.
- ✓ **Best sweeping results:**  
Due to individually adjustable brush pressure via stepless spindle adjustment.
- ✓ **The bema 20 Dual is a unique sweeper:**  
There is no comparable solution in this performance class on the market.
